Brief Resume

Dr. M. I. Sahadulla, M.D, F.R.C.P (Ireland), F.R.C.P (Lon), M.B.A (Hull, UK)

A post-graduate in General Medicine from the Trivandrum Medical College, a Fellow of Royal College of Physicians, Ireland & London and an MBA from University of Hull, UK, Dr.Sahadulla has been working with Saudi Aramco (Arabian American Oil company) Hospitals in Saudi Arabia since 1975, where he lead a team of doctors of various nationalities. He has over 25 years of experience and international exposure in the field of Healthcare Management and Internal Medicine. Prior to joining Aramco, he was a member of the faculty of General Medicine in the Kerala Government Medical Colleges also worked in National Health Services, UK and had training in the best Medical Centres in United States.

His association with Saudi Aramco, which has one of the most advanced medical organization in the world certified by the Joint Commission of American Hospital Organizations (JCAHO), gave him enough opportunities to develop his special interests in modern healthcare delivery including Quality Improvement, Infection Control and Credential and Privileging. He has attended several conferences in Healthcare Management and Continuing Medical Education programme in the United States and the United Kingdom.

He is the Founder Chairman and Managing Director of KIMS Health Care Management Limited. Since inception quality and safety in patient care was the main goal of KIMS and in a short span of time it achieved National Accreditation by NABH (National Accreditation Board for Hospitals & Healthcare Providers), International Accreditation by ACHSI (Australian Council for Healthcare Standards Internationale), accreditation for Laboratory Medicine by NABL (National Accreditation Board for Testing and Calibration Laboratories) and a high CRISIL rating for its financial services.

Dr. Sahadulla has established a very strong academic and research interest in KIMS running more than 10 postdoctoral DNB courses. KIMS maintains an on going educational relationship with Royal College of Physicians of London. He is an MRCP Examiner appointed by RCP.
